Governance

ACTIVITY REPORT

2023

Making governance a tool to transform societies, consolidate public action and accelerate transitions

Contributing to more open and inclusive societies

Promoting vibrant democracies, transparent public action, open civic spaces and the right to reliable information to foster inclusive public policies that work to reduce inequality.

Supporting financing for sustainable development

Promoting transitions and sustainable development through better management of public finances and the mobilization of all potential investors, such as diaspora communities.

Strengthening the rule of law and public action

Accompanying transitions in administrations and delivering public services at all territorial levels, guaranteeing access to justice and reducing the risks of catastrophes.

Contributing to macroeconomic stability and crisis responses

Offering emergency funding when requested by the French government in response to economic, social, environmental and security crisis.
