Corporate social responsibility: our commitments

#WorldInCommon

Our 2025-2030 ambition

To contribute to the Group's SDG alignment through the quality of its operations and the consistency of its internal functioning with its mandate.

This new **dynamic** is part of the Strategic Orientation Plan for the **2025-2030 period**. AFD Group aims to become the **first public development bank fully aligned with the Sustainable Development Goals** (SDGs), making sure that its financing, operations and management are in line with the 2030 Agenda. We are committed to maximizing our positive impacts—while also ensuring no significant negative consequences—across three pillars:

climate and nature
protection

institutional and democratic
development

the reduction of
inequalities and
multidimensional
vulnerabilities

Since 2004, we have committed to meeting the challenges of sustainable development and being responsible within our organization for the impacts of our decisions and activities on society and the environment. Our CSR (Corporate Social Responsibility) approach is consistent with the framework set by the 2030 Agenda, the principles of the United Nations Global Compact, and the European Green Deal. As a public operator, AFD Group is also affected by France's ecological transformation plan and environmentally friendly public services measures.

Key values

The values with which AFD Group and its employees identify are commitment, integrity, openness, adaptability and respect. These are at the heart of our collective and individual commitments, as well as our social duty.

About AFD Group

AFD Group finances and drives the transition to a fairer, safer and more resilient world, working with its partners to support communities all over the world. Drawing on the complementary strengths of its entities—Agence Française de Développement for public financing, Proparco for responsible private investment, and Expertise France for technical expertise—the Group is ideally positioned to meet all sustainable development challenges.

Working in over 160 countries, including France's Overseas Territories and Departments, the Group adapts its operations to the realities on the ground, actively supporting local initiatives. With over 4,000 projects, whose objectives are aligned with the Sustainable Development Goals (SDGs), AFD Group works on behalf of the French people, together with all stakeholders committed to economic development and the preservation of common goods: climate, biodiversity, peace, gender equality and global health. Working by your side, toward a world in common.
