# Digital technology, a key tool for accelerating development trajectories

**78%**

of the financial volumes committed by AFD Group between **2021 and 2023** targeted internet access and services, in line with SDG target 9.C.

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

**8,341** telecom towers  
and **11,689** relay antennas  
will be built through the projects  
initiated in 2024

**13,609 km**  
of fiber-optic cables  
will be installed

**44.8 million people**  
will have new or improved access to the internet

Beyond internet access, digital technology is proving to be a transformative technology that is crucial for accelerating the achievement of all 17 SDGs, with no exception. Our strategy and our impacts fall within this vision of making digital technology a key driver for accelerating development trajectories in our partner countries.

# AFD Group's projects in the digital sector **under implementation**

**134**  
**projects**  
under implementation  
involve the digital  
sector, including:
