**ACTIVITY REPORT
2025 MIGRATION**

A record level of mobilization for implementing the “Migration and Development” action plan

In line with France’s interministerial “Migration and Development” strategy (2023–2030), AFD Group substantially expanded its work in 2025 around three priorities: (1) building on the contributions of migration to development; (2) promoting safe, orderly, and regular migration that respects human rights; and (3) addressing vulnerabilities associated with forced displacement.

2025 trends

- Strengthened efforts to support displaced persons, refugees, and host communities (more than €118 M mobilized).
- Increased support for partner countries’ migration policies (€51 million committed, notably towards combating human trafficking, supporting labor mobility, and helping returning migrants reintegrate).
- Continued AFD Group financing to harness the contributions of migration and diasporas to development (€18 M committed).

3-YEAR TREND

Financing dedicated to the issue of migration and forced displacement continued to increase in 2025, following the adoption of the French interministerial “Migration and Development” strategy and AFD Group’s action plan. In 2025, €187.6 M was committed,* representing a 40% increase over 2024.

BREAKDOWN BY FINANCIAL TOOL

In 2025, cooperation with French operators intensified and the amount of European Union delegated funds increased. Financial instruments diversified as seen by AFD’s first loan dedicated to professional migration and tourism-related training in Tunisia (€8 million) and the implementation of the CSO-I mechanism to support civil society organizations.

BREAKDOWN BY THEME

THE THREE PRIORITIES OF AFD GROUP'S "MIGRATION AND DEVELOPMENT" ACTION PLAN

💡 Did you know?

AFD Group plays a major role in implementing France's interministerial "Migration and Development" strategy (2023–2030). In 2025, its commitments reached a record €187.6 million, nearly 60% of which was financed with French public funds. In 2025, three notable developments: a substantial effort to address forced displacement; the first migration-focused loan to Tunisia to support labor mobility; and increased financing both to combat human trafficking and to support the sustainable reintegration of returning migrants.

Achievements of projects financed by AFD between 2023 and 2025:

Meet Africa 3

This project, implemented by Expertise France with support from AFD, helps entrepreneurs from the African diaspora in Europe develop SMEs that create jobs and generate long-term impact in partner countries. Special attention is paid to women entrepreneurs.

Improving the training offer for young people in tourism

In Tunisia, AFD is supporting the transformation of four tourism schools into centers of excellence in order to train more than 1,500 young people per year, boost their employability, and facilitate structured professional mobility.

H.E.R.
(Hope, Empowerment, Resilience)

In Sudan and Ethiopia, AFD is strengthening the resilience of displaced people and host communities by improving access to essential services, protection, and economic self-reliance for displaced women.

THAMM+
Équipe France

The THAMM+ Équipe France initiative promotes safe, legal, and mutually beneficial circular labor mobility between Morocco and France, particularly in agriculture and hospitality. The project supports workers and protects their rights throughout the process, from preparation before departure through to their return. Implemented by Expertise France, it is cofinanced by the European Union, the French Ministry for Europe and Foreign Affairs, and AFD.
